\*\*\*\*\*

0730 Check-in and Breakfast

0800 Welcome and Introductions

Mark Norton

0815 – 1045 **Server Failover/Trusted Recovery**

**SW Soft** – *Virtuozzo is a patented OS Virtualization solution. Virtuozzo creates isolated virtual environments (VE) or containers on a single physical server and OS instance.*

**Mimosa Systems** - *Email archiving solution that delivers archiving, eDiscovery, recovery, disaster recovery, and storage management.*

**Cemaphore** - *MS Exchange server recovery capability*

**Neverfail** – *A comprehensive high availability solution for disaster recovery, business continuity and continuous data protection by replicating data from an active server to a passive server through a unique cloning process.*

**Scalent Systems** – *Dispensing of most “standby” servers while protecting systems, by enabling N-to-1 failover or by enabling “standby” servers to be repurposed even as they remain available for failover or disaster recovery.*

1045 – 1100 Break

1100 – 1200 **Enterprise Management and Analysis**

**LogLogic** - *firewall, router, server, application, operating system and device log data to be automatically collected, stored, reported and alerted on.*

**Bivio** – *Network appliance platforms, enabling developers to rapidly develop and deploy wire-speed, deep-packet processing network applications.*

1200 - 1300 Lunch/Demos\*

1300 – 1330 **Interoperable Field Communications**

**CommsFirst**- *Multi-mode field expedient communications/tactical networking apps.*

1330 –1500 **Storage Management**

**OnStor** - *Asynchronous data replication between multi-vendor storage arrays, delivering the capability for "windowless" backup and business continuity.*

**Agami** - *Simplified storage management for VMware environments, consolidating enterprise storage with a single, unified platform that delivers multi-protocol access and comprehensive data protection.*

**Copan** - *COPAN Systems are based on a MAID (Massive Array of Idle Disks) platform to create products that combine the best features of traditional disk and tape systems.*

1500-1515 - Break

1515 – 1630 Government Roundtable including the Venture Capital Consultants.

\*Some companies may have laptop demos available to present informally to interested attendees
